Why Slice Ceramics?

- next to diamonds Slice ceramics are the most durable material on Earth
- Slice ceramics have a hardness of 8.2 MOHS vs. steel at 5.5 MOHS
- never rusts, non-sparking, anti-magnetic, does not conduct electricity
- oil-free finish is perfect for clean rooms
- stays sharp up to 10x longer than steel
- single Slice ceramic blade equivalent up to 20 single sided metal blades
- less blade changes = less money = less downtime = less injuries
- Slice ceramic blades are safer than traditional metal blades

← 1-5/16" long (34mm) →

rounded edges for
added safety

thicker blade easier
and safer to handle

double-sided equivalent
to up to 20 metal blades
